DETAILED ACTION

1. Claims 1, 3-13 are pending and claims 2 and 14 are cancelled in the instant application.
2. The rejection of claims 1, 3-13 under 103(a) over Anderson et al., WO 02/04446 and Rai et al., Pelagic Ecology Methodology, 2002, pages 163-167 is maintained for reason of record. Applicants argue that the Anderson compound does not contain such a moiety and is one of only two compounds that is substituted with a nitro group. Anderson does not specifically provide biological data for the Anderson compound itself. Rai, however does not provide a method of synthesizing the tritiated thymidine used in the aforementioned studies. Applicants submit that the teaching of the prior art of record would not have led one to select the Anderson compound as a lead compound, much less modify the Anderson compound on the manner needed to arrive at the claimed compounds. It is examiner's position that one having ordinary skill in the art would be motivated to modify the compound of Anderson et al. to obtain the instant claimed compound. Because it is well known in the art to replace a hydrogen in a known compound with H³ to see how the compound would work in the body. Rai et al. replace H by H³ on the thymidine to follow how the drugs is used in the body.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1625

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
